PROFESSIONAL SUMMARY

Information Systems graduate and ISTQB® CTFL 4.0 certified QA Engineer with solid experience in test automation, software quality assurance, and continuous integration across web, mobile, and API environments. Skilled in designing and executing automated test strategies that improve efficiency, performance, and product quality in Agile teams. Proficient in Cypress, Playwright, Appium, Maestro, and Selenium for web and mobile automation, and in Postman, Apidog, and Swagger/OpenAPI for API testing. Experienced with CI/CD pipelines (Jenkins, GitLab) and BDD/TDD/ATDD methodologies aligned with business goals.

SKILLS

- Test Automation: Cypress, Playwright, Selenium, Appium, Maestro
- Mobile Testing: Android & iOS automated testing
- API Testing: Postman, Apidog, Swagger / OpenAPI
- Languages & Build Tools: Java, JavaScript / TypeScript, Maven
- CI/CD & Version Control: Jenkins, GitLab, Git, Bitbucket
- Databases: SQL (MySQL & PostgreSQL)
- Test Management & Collaboration: Jira, Testiny, Confluence
- Methodologies: BDD, TDD, ATDD, Agile / Scrum

PROFESSIONAL EXPERIENCE

Engineer | Software Tester (Quality Assurance) — CEiiA / BEN4US (Matosinhos, Portugal)
Apr 2026 – Present

- Design and execute automated test scripts for web and mobile applications using Cypress, Playwright, and Appium/Maestro (Java, Maven) for Android and iOS.
- Perform API testing and contract validation using Postman, Apidog, Swagger/OpenAPI, Cypress, and Playwright.
- Combine manual and automated testing to ensure functional and regression coverage across platforms.
- Develop and maintain reusable test cases for regression and smoke testing.
- Manage test cases and traceability in Jira (integrated with Testiny) and document QA processes in Confluence.
- Own source control and CI integration for test suites using GitLab.
- Identify, report, and track defects, collaborating closely with development teams.
- Contribute to test planning, test strategy, and continuous improvement of QA processes.

Test Analyst / QA — DATUM (IT Consulting) | Client: Banco BV – Banco Votorantim (Remote, Brazil)
May 2025 – Mar 2026

- Worked as an outsourced QA consultant through DATUM, allocated full-time to Banco BV (Banco Votorantim), supporting quality assurance for banking systems in a regulated financial environment.
- Created and automated test scenarios with Cypress and Cucumber (BDD).
- Executed and validated API tests using Postman.
- Analyzed and queried multiple relational databases to support test validation.
- Integrated automated tests into CI/CD pipelines with Jenkins.
- Managed code versioning using Git and Bitbucket.
- Tracked tasks in Jira and maintained documentation in Confluence.
- Participated actively in agile ceremonies and technical discussions.

Junior QA — OléoPlan Nordeste (Iraquara, Brazil)
Jan 2024 – Jun 2025

- Developed automated tests for web applications using Cypress and Selenium.
- Performed manual and automated tests to validate functional and non-functional requirements.
- Conducted regression testing and performance monitoring.
- Managed defects and quality metrics using Trello.
- Integrated test pipelines using Jenkins and Git.

Software QA Analyst — Pipoca Ágil (Rio de Janeiro, Brazil)
May 2023 – Oct 2023

- Developed and maintained test automation using Cypress and Selenium.
- Conducted functional black-box testing and root cause analysis.

- Automated regression tests to increase system stability.
- Documented and tracked bugs.
- Performed exploratory testing for continuous product improvement.

QA Engineering Intern — Sivirino.com (Salvador, Brazil)
Oct 2021 – Jul 2023

- Validated system requirements through functional and acceptance testing.
- Developed manual test cases and automated scripts.
- Created detailed reports on improvements and system optimizations.

IT Intern — Secretaria de Ciência, Tecnologia e Inovação (Bahia, Brazil)
May 2022 – Dec 2022

- Executed manual and automated software/hardware tests.
- Produced technical documentation and user manuals.
- Offered technical support for digital certification.
- Configured test environments and monitored systems and databases.
- Identified and corrected defects across applications.

EDUCATION

Bachelor of Information Systems — Unijorge, Brazil (2019 – 2022)

CERTIFICATIONS

- ISTQB® Certified Tester Foundation Level (CTFL) 4.0 — 2024
- Functional Testing with Selenium WebDriver — Udemy (2023)
- Software Testing Program — Júlio de Lima (2023)
- Automation with Selenium WebDriver & Java — Inova Test (2023)
- Cypress: Direct to the Point — Agilizei (2023)
